Merrick's New 3 Quart

Calf Nurser Bottles

with Super-Calf Nipples

Merrick's new 3 quart **Calf Nurser Bottles** are designed with unique easy-clean handles. Combined with the easy-clean lip design from our standard 2 quart bottle means the producer can quickly and thoroughly clean and sanitize each bottle to aid in preventing any buildup of harmful bacteria. Another unique feature of this bottle design allows both large and small grips to hold the bottle securely.

Our new 3 quart size bottle offers the best in overall strength and was specifically designed for use with Merrick's Super-Calf Nipples. The features of the bottle and nipple work together to more effectively position the nipple on the bottle. Less struggle means less wasted time during calf feeding.

Merrick's **Super-Calf Nipples** feature an important advance in calf nursing nipples. Incorporated into the nipple design is a patented* air release valve, which prevents leakage and yet allows air to be released into the bottle as the calf is nursing. This ensures the proper flow of milk to the nursing calf. The valve is protected with extra "bumpers" for even longer wear. In addition, the surface of the Super-Calf Nipple has been specially treated to promote ease of use.

Product No.	Description
45060713	Case of 12 - 3 Qt Super-Calf Snap-On Bottle & Nipple Sets

*U.S. Patent 5474028
