BLUE RIBBON

Calf Electrolyte Pack™

with
SPECIAL DIRECT-FED MICROBIALS*

Also Available In
CONTROLLED GEL ACTION FORMULA

DESIGNED FOR CALVES

BLUE RIBBON Calf Electrolytes are specifically designed for calves as a supplemental source of electrolytes and nutrients.

A WINNING COMBINATION

Both **BLUE RIBBON Calf Electrolyte Regular Pack** and **Electrolyte Gel** are formulated to provide a supplemental source of electrolytes, nutrients and direct-fed microbials in one product.

FEATURES

- Highly palatable.
- Contains supplemental electrolytes/nutrients.
- Contains specifically designed direct-fed microbials at a guaranteed analysis.
- Contains inulin and glutamine for intestinal health.

PACKAGING

12-4 oz individual packets for easy single dose mixing are available per 3# box or in 18 lb pails with 72 packets. Product is also available in 5 lb pails or 25 lb pails and 100 lb drums for better economics to larger users.

Mix & Feed Instructions and Packaging Sizes

BLUE RIBBON Calf Electrolytes™

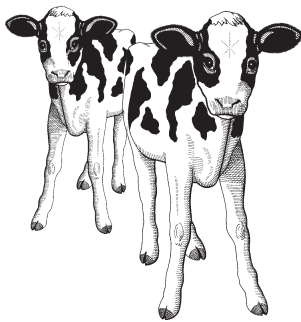

INDICATIONS FOR USE: For sick/scouring calves, transported calves and during periods of stress.

MIX AND FEED INSTRUCTIONS

Mix one packet (4 oz) of BLUE RIBBON electrolytes with 2 qts (2 L) of 90°-110° F water. Feed electrolytes 2-4 hours after milk/milk replacer feeding. Discard any solution not consumed in 12 hours.* Follow veterinary advise for treatment of disease factors. If you have any questions, consult Merrick's Technical Services at 1-800-MER-RICK (637-7425).
